EXAMINER'S AMENDMENT

1. An **examiner's amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The following amendment is made to cancel the non-elected invention claims drawn to the photomask. A typographical error was made in the Restriction mailed May 19, 2006. Applicants have elected the method claims (1-6) and the non-elected mask claims (7-12) are withdrawn, and canceled, as being part of the non-elected invention (elected without traverse). The Office Action mistakenly set forth claims 1-9 as Group I, when in fact claims 1-6 are Group I.

3. The application has been amended as follows:

Cancel claims 7-12.

4. The following is an examiner's statement of **reasons for allowance**: Upon a complete review of the entire written record the instant application is in condition for allowance. A search of the prior art has not resulted in any prior art references of more pertinence than those cited by Applicant on the three PTO-1449 forms. No prior art rejection is being made over these references since the prior art does not describe,
